Each Ticket will consist of four quarters, value $2,50 each. The holder is entitled to admission to the Concert and to the amount of gift awarded to it or its fraction. Tickets number from 1 to 100,000.
The Citizens' Bank of Kentucky is Treasurer.
All Moneys arising from the sale of Tickets will be deposited with the Citizens' Bank, subject only to the order of the President and Treasurer of the Library, countersigned by the Business Manager.
During the Concert the sum of
$550,000 in Greenbacks
Will be distributed by lot to the holders of tickets, in the following Gifts, viz:

After paying the expenses of the enterprise and making the distribution of the Gifts, the balance of the proceeds arising from the sale of Tickets will be appropriated to the establishment of a
Free Library in Louisville, to be Called the
Public Library of Kentucky.
The Concert and Distribution will take place under the immediate supervision of the Trustees named in the act of incorporation.
The trustees will be assisted by well known and eminent citizens of Kentucky, who have consented to be present at the concert and to superintend the drawing and distribution of gifts.
The holders of tickets to which gifts are awarded will be put in possession of them or their fractions, at the office in Louisville, the second day after drawing and every business day for six months thereafter, and may be sent direct or through any Bank or Express Co. for collection. All orders accompanied by Drafts, Post Office Money Orders, or Greenbacks, will be promptly attended to and tickets returned by mail, registered or express, as desired.
Tickets are free Greenbacks—good only to the holder.
Buyers will note that there are only One Hundred Thousand Tickets, instead of Two Hundred Thousand, as in the San Francisco Gift Concert, and that there is $651,000 more distributed. I could thus and made the awards in four months and paid $488,000 to ticket holders from Nov. 20 to 30th, 1870, and earned over $125,000 to the secretary due tickets not presented.
It will be particularly noticed that it is a matter of impossibility for any one to know what numbers draw gifts, as it is not known what the gift of any number drawn from the first wheel will be, until the sealed box, with number of the gift plainly printed, is taken from the other wheel and opened in full view of the audience; therefore the largest gifts may not come out until towards the last, or in the middle of the drawing. The $100,000 gift in the San Francisco Gift Concert under the management of P. B. PEYSER, was the 500th number drawn, and was awarded and paid to a gentleman in New Orleans, 441 Gifts in all that can be drawn in one day.
☞ The Numbers and Gifts are drawn by blind children from 9 to 14 years of age.
The Drawing will be extensively published, and parties ordering Tickets will have printed lists sent them. Parties forming Clubs and desiring information will please address this office.
(1 Tickets for $100; 25 Tickets, $250; 50 Tickets, $500; 125 Tickets, $1000.
The undersigned, the principal business manager of the very successful Mercantile Library Gift Concert at San Francisco, California, has been appointed agent and manager of the Gift Concert in aid of the Public Library of Kentucky.
The drawing will take place in public, and everything will be done to strictly supply buyers of tickets that their interests will be as well protected as if they personally superintended the entire affair.
MANNER OF DRAWING.
There will be two glass wheels. One wheel will contain 100,000 numbers, plainly printed on leather tags. The other wheel will contain 721 boxes, each containing a gift. One tag or number will be drawn from the 100,000 wheel, and the first box drawn from the second or 721 box wheel, will contain a gift, neatly printed and sealed up, and the gift so drawn, from the second wheel will be the gift of the first drawn, whether $100 $1,000 or $100,000, as announced.
14,501 Tickets Disposed of in July.
To insure ticket holders, the public are assured that if only 25,000 tickets are sold only 25,000 numbers go in the large wheel, the 721 gifts awarded, but diminished pro rata. In case 50,000 tickets only are sold, only numbers 1 to 50,000 go in the large wheel, and the 721 gifts diminished one-half; and in case only 85,000 tickets are sold the entire 721 gifts will be paid in full—it being intended that no unsold tickets shall participate.
The Manager has already paid into the Citizens' Bank $50 000 towards defraying the expenses, and does not depend on sales of tickets to pay his expenses of Printing, Advertising, &c. The public are invited to the utmost scrutiny as to the reliability of the entire affair.
Persons desirous of acting as agents for the sale of tickets in any city in the United States or Canada's, address

### Small Talk.

Isn't it queer that *contractors* should be employed to widen streets?

Clara asked Tom, "what animal dr opped from the clouds?" "The rain, dear," was the reply.

A minister at an eating house gave the order: "Roast beef, well done, thou good and faithful servant."

Why is a woman tying her corset like a man drinking to drown care? Because, in so lacing herself she becomes tight.

One editor in Georgia asked another "whether he can bite the bottom of a frying pan out without smutting his nose."

An exchange, wanting to compliment a "Live Stock Journal," says it is edited by a man whose head is chuck full of live stock.

"Mrs. Jones, what makes the canary sleep on one leg?" "I don't think any one makes him, my dear; I think he does it of his own accord."

A Richmond girl has been crying ever since the 3d of May, yet her hard hearted father wont give her no three shillings to buy a panier.

A man died at St. Louis, recently, and in his will, after stating that he never forgot a favor, left $1,000 to an individual who, ten years before, ran away with his wife.

A little Boston girl joyfully assured her mother, the other day, that she had found out where they made horses—she had seen a man in a shop just finishing one of them, for he was nailing on his last foot.

Mrs. Farrar's remark, "If poor, dear Crittenden were alive he would get me off," is only paralleled by the youngster who murdered his father and mother, and didn't think the Judge "orter hang a poor orphing."

A man stopping his paper, wrote to the editor: "I think folks otient to spend their munny for papers, my dadda diddant, and everybody said he was the intelligent man in the country, and had the smartest family of boiz that ever digged taters."

# NEWPORT DAILY NEWS.

THURSDAY, Sept. 21, 1871.

**The Newport Journal.**

Summer residents who wish a Newport paper during the winter and do not care for a daily issue, can have the NEWPORT JOURNAL, published once a week, sent to their address by leaving orders at this office. The JOURNAL contains a full report of local news, will record all real estate transactions, and give especial attention to improvements in and about the city. Price two dollars a year.

**Editorial Notes.**

General Spinner is not very favorably impressed with what he saw in the French Assembly. While in France he paid a visit to M. Thiers and in company with Minister Washburne, occupied seats in the diplomatic gallery, to the exclusion of several foreign ministers. But of the appearance of the Frenchmen in debate he says, "Much as I have been accustomed to the want of proper decorum in our own Congress, I was not prepared for the almost ruffianism of the leaders of the nation that lays claim to being the most polite and refined upon earth. I have seen the German Reichstadt and the French Corps Legislatif in session, both on great occasions and under trying circumstances, and have had good opportunity to judge how far the one is the superior and the other the inferior of the Congress of the United States. I have also seen great numbers of the soldiers of both these nations; with these, too, our own must be assigned an intermediate place. Discipline of the individual and of the masses is the rule in Germany."

Mayor Hall has accepted the situation and acknowledged Green as assistant Controller. Thus far the progress of reform has been unchecked. The assistant Controller and the Committee of Seventy are busily engaged in straightening out the accounts and reducing the affairs to a legible condition. It is said that the hoste of plunderers who held positions under Hall and Connolly must shortly submit to a merciless decapitation. Meanwhile, honest people wear an expression of satisfaction at the prospect of speedy deliverance from such a hoard of theives.

A correspondent to the Tribune, supposed to be President White, of Cornell University, calls attention to the inadequate provisions against calamity on the Fall River line of steamers. The boats, he says, are insufficient, and, as all experience proves, so placed as to be particularly of no use if a rush is made for them. As to life-preservers, life-buoys, floating stools and the like, he could find none in his stateroom or in any other place available in a panic. That statement is no truer in regard to the Fall River boats than it is in regard to any other of our large steamers. We doubt if there is a boat leaving our wharves anywhere, north or south, or plying upon our inland waters, that is so supplied with life preservers and life boats as to be able to protect the lives of half its passengers in case of fire or other accident.

The Florida State engineer says that Florida is still there, no part of it having yet given place to water, and he has no notion that his state is going to become an ocean.

President Grant is wandering about the state of Ohio, yesterday he was at Cincinnati, today he has gone to Clermont, and tomorrow—well we don't know where he will be then.

Bold work was attempted Wednesday night at Phenix. Two safes were blown open by the robbers, and the contents of one of them taken. The burglars were frightened away from the other by the discharge of a pistol. The safe belonging to the Harris Manufacturing Company was first attacked. An opening was forced with gunpowder and at their leisure the thieves took what they wished, which consisted of a few hundred dollars in money, and one or two checks. The other safe was that of the Lauphear Machine Company. This they attempted to open in the same way, but the explosion was heard by a neighbor across the way, who hastily arising, discharged a pistol which sent the robbers away pell mell. It is thought that they came from a distance to commit their deeds of plunder.

There are a few fools yet left in the world, and Massachusetts has her full share of them. Last night at the Republican caucus in Boston, forty-four delegates were chosen for Butler, and in Lowell the entire delegation, twenty-two in all, are in favor of him. There were, however, fifty-six elected against him in Boston, and in the whole state thus far, there are 216 for the "great reformer" and 357 against him. His strong holds have all been heard from.

General Sheridan is enjoying himself on the plains, at the expense of the buffaloes. We have not heard, though, of any buffaloes being the sufferers as yet.

Theodore Tilton's last great effort, the biography of the great and mighty female candidate for the Presidency, is well shown up in the present number of Hearth and Home. In the foreground of the picture is the Mrs. Woodhull in the two views, "the right and left," back of these are half a dozen views of the same individual to represent her various moods, as her biographer says she never appears twice alike. Further back in the picture is the house top where she is holding nightly interviews her guiding spirit Demosthenese, her husband, Col. Blood, with his head out of a dormer window, taking notes and holding a candle for the congenial spirits to see to converse with. The rediculousness of the whole biography is shown up in an admirable manner. Nast will have to look well to his laurels, or the Hearth and Home will get ahead of him.

**Mr. Greeley on the Presidency.**

That distinguished farmer, politician, protectionist &c., has written an article for the Galaxy, in which he attempts to show that the "One Term Principle" should prevail in regard to our Presidents and Vice Presidents. This article the Times discusses as follows: Mr. Greeley's article is, as we have intimated, confused. But there is a very evident effort to show that the people look with disfavor on renominations to the Presidency, and that it is dangerous, from a partisan point of view, to encourage a President in accepting a renomination — Mr. Greeley's idea seems to be that the limitation to one term has grown to be a sort of custom which ought to be regarded. In this light may be interpreted his recent speech out West, when, after saying that if the pleased his country men to advance him to any place of profit or honor, he would accept of it for the good of his country," he went on to say, "we are making innovations and breaking time honored customs in a way that bodes no good to our continued prosperity." But the custom of rejecting a President after one term has been more honored in the breach than in the observance. It is true that, since Jackson's day, which is the period to which our historian prudently limits his researches, the people have rejected Van Buren, and that their respective parties have declined to renominate Fillmore and Pierce, while Polk and Buchanan did not seek reelection. But it is also true that of the six Presidents preceding Jackson, four—Washington, Jefferson, Madison and Monroe—served a second term. Since Jackson, the lamented Lincoln was chosen a second time—though Mr. Greeley, perhaps, is justified in passing lightly over the case of Mr. Lincoln, whom he did all he could to prevent being re chosen. Historians who write with what the French call a *parti pris* are notoriously poor teachers of the philosophy of history, and Mr. Greeley is no exception to the rule. There are unquestionably grave difficulties connected with the eligibility of our Chief Magistrate to re election, but they are not the "root" of all the political corruption in the land, nor have they even prevented the people from gladly, and on the whole very wisely, availing themselves of the discretion left with them by the Constitution. Hobbies are poor horses to ride to the White House on at best, and of all the hobbies that our amiable friend has mounted for that journey, we think the "One Term Principle" is among the lamest, and is certainly ridden by him in the most awkward manner.

**Political.**

The republicans of the First Assembly District of St. Lawrence county, have nominated Darius A. Moore for member.

San Francisco threw at the late election more votes than ever before, with the single exception of the Presidential election in 1868. The republicans carried ten of the twelve wards.

Alexander H. Stephens says that "the key note" which was sounded in Ohio by Vallandigham has lost California to the democracy, and is loosing the other States as fast as possible.

Wilmington, Del., recently elected republican municipal officers, and in less than two weeks all the city bonds remaining unsold were disposed of and the demand was not satisfied.

Congressman Aaron A. Sargent, of California, is a candidate for the United States Senate. The vacancy does not occur till the close of his present term in the House of Representatives.

The following have been chosen delegates to the Republican State Convention from the first district of St. Lawrence county;—Hon. G. M. Gleason, Hon. S. N. Sherman, M. L. Laughlin and N. H. Styel.

Four years ago Dr. H. W. Palmer, Jr., was elected to the State Senate by the republicans of the eleventh district, Dutchess and Columbia counties. In 1869 the republicans nominated another candidate and lost the district, the democrats electing Mr. George Morgan. The republicans propose to nominate Dr. Palmer again this year, and think they can elect him.

The republicans of New Jersey are organizing with great energy, and going into the canvass with a will. Meetings will be held in New Brunswick Monday, September 18; Elizabeth, Tuesday, September 19; Paterson, Wednesday, September 20, and Rahway, Thursday, September 21, for the ratification of the nomination of Cornelius Walsh for Governor. Mr. Walsh, John Davidson and others will be present and address the meetings.

**Personal.**

Governor Brown, of Tennessee, is dangerously sick.

Ex-President Millard Fillmore is at the Gilsey House, New York.

Mrs. B. A. Park, of Watertown, Conn., has made a "grasshopper bouquet," whatever that may be.

The Comte de Paris is an inveterate letter-writer, and is said to be a regular correspondent of several journals in this country.

A poor penman on the Cincinnati Commercial says that "Greeley's signature on the hotel register at Chicago is described as resembling a field of Norway oats after a cyclone."

Madame Catacazy, wife of the Russian Minister at Washington, will have especial charge of Prince Alexis while in this country, and those who slight her cannot get a word with him.

Olive Logan says that in Europe the woman suffrage movement is generally classed with Mormonism, Oneida communism and freeloveism, which shows that the people of Europe are good at classifying.

The Secretary of War will leave Washington on Thursday, in company with General Sherman and General Humphreys, Chief of Engineers, to inspect the government works at Fort Schuyler, Willett's Point, Hell Gate, and other points near this city.

Mr. Edward Jenkins, author of "Ginx's Baby," was nominated for Parliament on account of a clever speech made to the liberals of Truro, but was defeated by a combination between the old liberal member and the conservatives. Mr. Jenkins's father is a minister in Canada.

The Pittsfield (Mass.) "Times" says that fifty years ago a man named David Hilliard disappeared from that town, and no trace of him could be found. A few days ago he returned. He had been in Maine, and had never seen a railroad until within a year. He left a little girl, but she is now a grandmother.

It is stated that there are now in the various forts and prisons of France not less than thirty thousand political prisoners—communists—while in France there are but one hundred and fifty-two judges, and the calenders of the courts are in such a condition that hardly more than as many trials can be terminated per month. It is scarcely probable that the government will care to keep such an elephant on its hands as the cost of maintenance of this army of prisoners, and they will probably be released on condition of quitting the country or some arrangement will be made with a company like that of the Lower California association for the deportation and colonization of this troublesome element.

Plate glass of the largest size is now manufactured in this country, of a polish, finish, and clearness equal to the best imported French glass.

**About Home.**

Young Cummerford, who was injured while going to the fire last Saturday, is rapidly recovering.

The Redwood Band has not been engaged by the King Philip Fire Company, and consequently will not go with them to Connecticut.

No one can be in doubt as to the nature of this weather. A few more such mornings and overcoats and stoves will not only be a luxury but a necessity.

Mr. James Phillips, formerly with Swinburne & Goffe, is now with Aumable & Allen at their new store on Thames street, where he would be happy to see his former friends.

In our report, yesterday, of the bank defalcation, by an error of the compositor, we were made to say that the surplus would cover the loss in to seven hundred dollars, it should have been seven thousand dollars.

The Fire Alarm Telegraph of New Bedford has been tested by the committee of the Common Council on the fire department, and they have determined to accept the work as satisfactorily performed.

Mr. J. P. Newell has just completed a fine drawing of the new yacht, Resolute, owned by A. S. Hatch, esq. He is engaged on several other works of the same character, which will soon be ready for exhibition.

Summer residents who wish to keep up a knowledge of local affairs in Newport during the winter should order the NEWPORT JOURNAL which gives special attention to this department. It is published at the same office as the NEWS.

Notwithstanding the cold weather, driving on the avenue has not yet ceased. Every afternoon, this fashionable drive presents still a gay appearance, although the carriages are somewhat less than they were in August.

There are nearly twenty miles of new streets, either built or contemplated at the present time in and around Newport. A few years hence we may expect to see our city scattered over an immense territory.

Newport seems to be abundantly supplied with shows this fall. Almost every night a performance of some kind takes place at the Opera House, but, unless we can have something different from what has been exhibited the past two nights, we think the less we have the better.

Col. Higginson, of this city, has gone to Winterport, Maine, to deliver an oration at the dedication of a soldiers' monument. The monument was presented to the town by the Hon. T. H. Cushing. There is not much doubt but that those who listen will be well paid for sending so far for an orator.

PERSONAL.—Hon J. H. Raney, the colored representative in Congress, from the first district in South Carolina is in town, the guest of Geo. T. Downing. Last evening, a number of his friends called to pay their respects and enjoyed a pleasant interview of an hour or more, which was spent in discussing the political problems of the day, with special reference to their bearing on the colored population of the country. Mr. Raney gave brief statements of the condition of affairs in the south, showed some of the defects of the legislation of the last Congress, and pointed out the work to be done in the future. He stated that the Ku-Klux are still rampant in some sections, and that a more vigorous execution of the laws is needed for the protection of union men. Speeches, more or less formal, were also made by Rev. Mr. Hamlin, Rev. Mr. VanHorne, Rev. Mr. Johnson, Mr. Downing, Mr. John Jackson and others.

We understand that Mr. Raney makes but a short visit to Newport. He is a fine looking, intelligent gentleman, evidently thoroughly acquainted with the wants of the section which he represents, and disposed to do all that he can, for its general prosperity.

THE FIREMAN'S MUSTER.—The entries for the fireman's gathering to come off in this city, next week, closed last evening. Nine companies have signified their intention of being present and one or two more will doubtless come. Enough have accepted the invitation of our firemen to make the occasion a very pleasant affair. Everything will be done by our men to give the visiting friends a pleasant reception. Many if not all of the engine houses will be decorated with flags during the day, and hung with lanterns at night. It is presumed that not a few of our citizens will show their appreciation of the affair by displaying their bunting and fireworks. Tonight the committees meet to talk over affairs, and determine upon a more definate programme to be carried out. The following table exhibits the list of the engines entered, the number of men belonging, the music with which they are accompanied, &c:

| Names of Engines | No. do. | Where belonging | No. of men. | Builder. | Hand or Steam. | Music. |
|---|---|---|---|---|---|---|

SUPREME COURT.—The Court came in at 9 o'clock, pursuant to the adjournment yesterday. His Honor Chief Justice Brayton, presiding on the civil side of the court, at the usual place of holding said court. His Honor Justice Durfee presiding on the criminal side, in the senate chamber.

In the appeal case of Allen executor vs. Allen et al, which case was opened to the court and Jury, yesterday morning, is still pending, having occupied nearly the entire morning, in examining witnesses in support of the execution of the will.

Mr. Sheffield commenced his argument for the appellants at about 12 o'clock.

CRIMINAL DOCKET.

Indictment of State against Eliza S. Thurston. The respondent was put upon her trial and the testimony being offered for and against her the jury being charged by the Court retired and shortly returned with a verdict of not guilty by reason of insanity. Attorney General Fayles for State, Hon. C. C. VanZandt and Stephen Gould for Respondent.

Indictment of State against Charles E. Bryer was the next to be put upon the trial, and the jury returned a verdict of guilty.

A distinguished visitor in the person of the Hon. J. H. Raney, Representative from the State of South Carolina, was in court this morning, visiting both court rooms accompanied by George T. Downing, his host.

**Bristol.**

Another case of small pox has been reported in the south part of the town, in an entirely different locality from that of the first case. The patient is Mr. Nathaniel G. Herreshoff, who came on Saturday evening, to visit his parents. It is not known where the disease was contracted, as Mr. H. has been in several cities during the past few weeks. The excitement which had nearly subsided, was again roused by the report.

**Morning News.**

The cholera is increasing in violence at Koingsberg. The ratio of deaths to cases has advanced from 59 per cent. to 80 per cent.

Butler, in his speech at Fall River, said that he should bolt the Radical State Convention at Worcester if "the will of the people should be choked off."

The remains of the late President Lincoln and his two deceased children were removed Tuesday from their temporary vault to a permanent one just completed for their reception in Oak Ridge Cemetery, Springfield, Ill.

Returns from the election held in Nebraska Tuesday, indicate the defeat of the new constitution by a very large majority. Of all the independent propositions submitted that of woman suffrage fared the worst.

Two cases of Asiatic cholera are said to have appeared at Perth Amboy, in New Jersey, the victims being recently landed immigrants from Germany. The Amboyans are alarmed, and an investigation has been commenced.

The United States and British commission under the treaty of Washington, for the examination and decision of the claims of both countries other than those known as the "Alabama claims," will hold their first meeting in Washington on Monday, the 25th inst.

Judge Woodruff rendered a decision at Hartford, Tuesday, on the petition of Seth Adams, creditor in the matter of the Boston, Hartford and Erie railroad, holding that the jurisdiction of Massachusetts is paramount, and its assignees are entitled to the possession of all the property.

The new Professor of Engineering at West Point will be Col. Peter S. Michie, now Professor of Philosophy at the Academy, a graduate of the class of 1863 and but lately a captain in the corps of engineers.

There was a magnificent procession of Odd Fellows in Chicago, Tuesday, comprising five thousand members and over one hundred carriages, containing dignitaries of the order.

One of the provisions of the new constitution recently rejected in Nebraska, which were voted on separately, was that establishing woman suffrage, and that received a more emphatic condemnation than any of the others. The girls must go over the line into Wyoming to enjoy their ladies' rights.

The Eastern Yacht Club had a regatta off Beverly, Mass., Tuesday. The Juniata took the first prize and the Cmoing the second. The Sadie which won in the recent race with the Haswell, was the fourth in the race.

A Washington dispatch says: Ex-Collectors of Internal Revenue are getting scared in consequence of the order of Commissioner Douglass, directing the prosecution of all delinquents, and many of them are now in Washington having their accounts finally adjusted, with a view of immediate settlement. They endeavored first to have the order for immediate prosecution postponed, but failed in that.

**Literary Notices.**

HARPER'S MONTHLY, for October opens with Dolores, a charming poem, poetically illustrated. The New York post office is the second subject of illustration; and the Yale College expedition of 1870 is most graphically sketched, both as to the scenery and people of the far west. The illustrated Siberian paper is concluded, introducing us to wild nature and wilder men. There are further Border Reminisicences by General Marcy. The rollicking American Baron is continued. Bayard Taylor furnishes Down the Eastern Shore, and Petroleum V. Nasby an illustrated poem of considerable length called Hannah Jane. The Easy Chair discourses in its most delightful vein upon Walter Scott and the New Traveling Panorama in Arcadia. The number is full of excellent matter in all departments, and is a mine of entertainments and instruction.

In the October ATLANTIC, Lydia Maria Child has a paper on "The Intermingling of Religions." Edward Atkinson writes on "Free Trade—Revenue Reform." Mr. Fields contributes another interesting instalment of Reminiscenses of Charles Dickens, with several letters. Part III of B. James's story, "Watch and Ward and a chapter of J. W. De Forest's story are given. T. W. Higginson contributes two papers, one of which is entitled "An Evening with Mrs. Hawthorne." Mr. Howell's travelling wedded lovers halt at Niagara and find the locality interesting. Clarence King contributes a sketch of frontier experience. H. H. writes of "June Days in Venice." The number is especially rich in poetry, the contributors being Whittier, Bret Harte, T. B. Aldrich, Mrs. S. M. B. Piatt and Burr G. Hosmer.

OUR YOUNG FOLKS for October has as usual a very excellent table of contents, and is well illustrated. "Jack Hazard" is an entertaining story for the young people. The department headed "Our Young Contributors" has become an interesting feature of this magazine.

**Indications that the New Constitution is Adopted.**

OMAHA, Neb., Sept. 20.

The latest returns of the vote on the adoption of the new constitution indicate that it has been adopted by several hundred majority. Lancaster county gives a majority of 1000 in its favor. The returns are coming in very slowly.

**THE SITUATION IN NEW YORK.**

**All Quiet About the City Hall**

NEW YORK, Sept 20.

There is a lull in the political storm. To-day all is peaceful around the City Hall and new court house, in remarkable contrast with the excitement of the past week. There is no crowding of distracted politicians, no uneasiness apparent among the clerks. Everything quiet. The Controller and Deputy Green were at business soon after 9 A. M.—Several prominent lawyers have been closeted with them for over two hours. The Deputy Controller is having prepared a list of the attaches of all the departments of both city and county bureaus, together with a statement of their salaries and the duties they are supposed to perform. This will be ready for the press in a few days. Ex-Deputy Storrs remains attached to the Controller's office as chief clerk.

HALL INVISIBLE.

Mayor Hall had not appeared at the City Hall at 2 o'clock this afternoon. No communication has yet been sent to the heads of departments revoking the order of the Mayor about Controller Connolly and Deputy Controller Green.

A CALL UPON HALL TO RESIGN.

The Evening Post this afternoon says: Mayor Hall and other members of the Board of Apportionment must resign at once and let the people elect a good mayor. The people who placed the mayor in office call upon him to leave it. If he waits four months, until the legislature turns him out, he will have destroyed his own political party in the State, obstructed all the business of the city, and endangered its peace only to his own deeper disgrace and more helpless ruin.

LATER—REVIVING EXCITEMENT.

The excitement at the Court House is again revived this afternoon by a large gathering of employes at the Department of Public Works, who crowd the lobbies and stairways, and manifest great indignation because they are not paid the wages due.

CONNOLLY

denies the rumor that he is to resign as soon as the accounts are investigated.

**THE TEMPERANCE MOVEMENT IN NEW YORK.**

BINGHAMTON, N. Y. Sept. 20.

The State Grand Lodge of Good Templars in session in this city today, voted in favor of local prohibition and will work for that end with the Sons of Temperance and State Temperance Society.

**A SCHOOLMASTER TURNED SWINDLER.**

PORTLAND, Me. Sept. 20.

J. B. Webb, principal of the Gorham Academy, and Supervisor of schools for Cumberland county, has been giving checks to a number of merchants in this city, drawn on the Saco bank, where he had no money deposited. Fifteen hundred dollars have already been presented. Mr. Webb is at present in Boston.

**A Conductor Held for Manslaughter.**

BOSTON, Sept. 20.

The preliminary examination of Henry O. Wright, conductor on the Old Colony Railroad, for manslaughter, took place today, at North Bridgewater. The accusation resulted from a coroner's inquest into the death of Mrs. Butterworth, wife of the station agent at Tittieut, who was killed Sept. 4th, while leaving the cars at that station, and, as the verdict alleged, from the criminal carelessness of the defendant. No defence was made and the case goes to the Grand Jury, defendant giving bail in the sum of $5,000.

**Over-doctored.**

Without any disrespect to the members of the medical profession, a profession honored by all thinking men, it's only just to say that they are too thick on the ground. The consequence is that the community is doctored over much. When nature needs only the gentle stimulant and alterative, which has become famous throughout the country as a reliable medicine, under the name of Hostetter's Stomach Bitters, she is not unfrequently dosed with a dozen prescriptions, all experimental, from the Pharmacopœia. This is an evil, and proves that the practice of medicine is far from being at all times a healing art. At this period of the year, when the fall of the leaf indicates that decay has seized upon the vegetable kingdom, many harassing diseases are prevalent. Chief among these may be mentioned intermittent fever and billious remittent. The exhalations rising from decomposing vegetation, and the heavy dews and fogs, are very apt to generate these complaints. The wisest policy is to protect the system by a course of Hostetter's Stomach Bitters at the commencement of the fall. Much suffering may thereby be avoided. But if the disease has already begun, its periodical visitations may readily be checked and broken up by this active, yet harmless, vegetable tonic.

But be on your guard against the charlatans who are attempting to palm off, under various names, unwholesome compounds, which they pretend to compete favorably with the great national chair, which has long since swept more formidable opposition from the field. Bear in mind that every bottle of genuine Hostetter's Stomach Bitters is authenticated by a splendidly engraved label, and a *fac simile* of the signature of the firm. Put up in bottles only, and cannot be obtained in bulk.

The sun will be totally eclipsed on the 11th of December, but the total obscuration will be visible only in parts of India, Ceylon and northern Australia. In India it will be observed by skillful eyes, but no expeditions have been organized in this country to watch it.

**The Hair, Scalp and Face.** Dr. B. C. PERRY, the well-known Dermatologist of New York and Boston, has opened his office in Boston for a few weeks at 13 Temple place, first flight. Those afflicted with the various diseases of the Scalp and Face, Pimply Eruptions, Moles, Warts, Moth Patches, Freckles and other unsightly excrescences, also with Falling, Loss, Untimely Gray Hair, and all diseases or complaints of the Scalp should call to secure his attention. PROVIDENCE, R. I., Feb. 11, 1870.

I have used "Dr. Bullock's Nephreticum" for several months past for a disease of the Kidneys and Bladder of ten years standing. During all that long and gloomy period I suffered at times attacks of the most excruciating pains and tried all kinds of medicines and many eminent physicians, with little relief at times, yet with no permanent, lasting benefit. At last I was induced to try "Nephreticum," and after continuing its use for a considerable period of time, I began to be benefited, and now I feel satisfied that I have obtained permanent, and, I trust, lasting relief. I still take "Nephreticum" and give to my friends. For a year past I have had no severe attacks of disease. I feel it has given me a new lease of life, and I most cheerfully and confidently recommend "Nephreticum" as a reliable, safe and sure remedy for diseases of the Bladder and Kidneys.

Chemical Laboratory, Brown University.
Providence, R. I., April 22, 1871.
J. F. HOLMES, Esq.
SIR:—I have examined the GUARDIAN LIGHTNING ROD AND POINTS, constructed of Galvanized Iron with spiral twist copper couplings and gilded points and consider it to be constructed on scientific principles, and to afford efficient protection against damage by lightning.
Yours, respectfully,
JOHN H. APPLETON,
Professor of Chemistry.

In all, with three or four exceptions, old rods were removed which were found to be in the worst possible condition, defective at the joints and badly eaten up with rust.

Parties who desire to have their Rods examined by leaving their orders at the Office of STEWART'S STABLES, Pelham street, or with S. F. HUBBARD, Grocer, foot of Washington Square, will be promptly attended to free of charge by the undersigned, Agent of the Guardian Lightning Rod Co.

# NEWPORT DAILY NEWS

**Rapid Travel.**

The possibilities of rapid traveling, by means of the facilities afforded by steam and a fortunate concatenation of circumstances, received a remarkable illustration recently. August 2d a gentleman left San Francisco by the Pacific railroad, reached New York just in time to get on board an Atlantic steamer, and arrived in London before the expiration of seventeen days from the time of leaving San Francisco, a distance of 5,800 miles, possibly somewhat more. The steamer made a quick passage and the traveller left her the same hour she arrived at Liverpool and reached London in five hours, making the whole time from San Francisco to London, over 6,000 miles, a little over seventeen days of mean or actual time. Some of the most eminent engineers believe the ocean transit will yet be shortened materially by improvements in ships and in the machinery and appliances of steam apparatus, and it would not be surprising if within ten years even this remarkable feat should become as rare an exception to the ordinary time as it is now because it would then be deemed slow.

# HAIR TEA.

A lady writes: "About six months ago my hair was coming out so badly that at every dressing I used to get a handful, which, not wishing to throw away, I laid by in a box. I have two bottles of your Hair Tea, and now I do not get enough to tie the ends of my braids, and have to go to the box for a few hairs for that purpose. I think every lady ought to know what a remarkable Hair Preserve you make."

Dr. KENNEDY'S HAIR TEA, a complete Toilet Article to beautify and invigorate the hair, is sold by Druggists everywhere at $1.00 per bottle.

LACE CURTAINS, DRAPERIES AND BEDDING.

WE invite those in want of Furniture of any kind, to call and examine our stock, and think it would be for their advantage, for the following reasons:

1st. We purchase our lumber from the mills at the West, where it is taken direct from the forests; and import our Upholstery goods from the manufacturers in Europe, thereby saving the profit of the Importer and the Lumber Dealer.

2d. We manufacture on a large scale, and are enabled to get the best workmen because we can employ them the year round; and in manufacturing articles by the hundred we can do so much cheaper than those who manufacture only by the dozen.

3d. We have double the quantity and variety of goods, and nearly double the room to display them of any Furniture house in Boston, thereby offering purchasers a better chance to suit their taste.

4th. Our rent is cheaper than that of any other Furniture house in Boston, considering the amount of goods sold, and as our sales are large we can afford to sell at a small profit, and are willing to do so.

THE

**THE NOVELTY CLOTHES**

WRINGER.

Nothing, except the Sewing Machine, has ever been invented which so much relieves the labor of the household as the Wringer. But its usefulness does not end here. The saving of clothing is of much greater importance. It is often remarked that articles of fine texture, last twice as long when *wrung* in a Wringer as when wrung by hand. The NOVELTY has Cog-wheels on both ends. * * The rolls are allowed to separate freely at either end.—These, besides other advantages which it possesses, seem to be indispensable to a practical wringer.—*New York Independent.*

**The Novelty Wringer.**—Has become an indispensable institution in thousands of families.—And we believe its great and increasing popularity is fully merited—for the Novelty evidently possesses all the requisites of a first-class, practical machine. Indeed, after using one for many months in our own family, we are prepared to indorse the Novelty as unsurpassed (the family says *unequaled*) by any of the several wringers previously tried.—*Moore's Rural New Yorker.*

The celebrated author, in this admirable essay, clearly demonstrates from a thirty years' successful practice, that the alarming consequences of self-abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately, and *radically*.
